OBJECTIVE

I am actively looking for employment as a Front-End Developer or Software Development Intern at any startup company that will allow remote work. My primary goal in life is to learn enough about development to become a Full Stack Developer/Engineer with hopes to add Go to my arsenal of skills and advance my skills in JavaScript and various JavaScript-based frameworks (e.g., AngularJS, ReactJS).

A secondary field in which I would like to be employed is the news industry for which I could act as a journalist/writer, given my philosophy major and years of experience in critical and analytical essay/blog writing. I have a particularly intense interest in culture and current political/economic affairs.

You can view a more organized and aesthetically pleasing version of this resume at <http://stephensanders.me/academic/>.

EXPERIENCE

Parkplots, LLC Remote Work May 2016 - September 2016

Junior Software Developer

- Developed software with the aim to simplify the process of locating a parking spot and help reduce traffic problems related to overflow parking.
- Primarily worked in front-end development while also helping with developing the backend.

Omicron Interactive Remote Work May 2016 - March 2017

Lead Developer

- Primarily involved with designing, developing, and testing various web and application-based projects for a multitude of clients.
- I also assist in systems management of the company's systems, lead generation, and business management.

SUNY College at Brockport Brockport, New York June 2016 - July 2016

Web Developer

- Primarily worked on implementing new features for the campus map using the Google Maps API.
- Assisted with the migration of the previous website's content to the new website's server.
- Additional information can be found here: https://www.brockport.edu/support/web_team.

The Odyssey Online Fredonia, NY January 2016 - February 2016

Writer

- I wrote articles primarily concerning my personal views on a multiple of philosophical topics.

EDUCATION

Brockport High School Brockport, New York September 2010 - June 2014

Diploma with Advanced Designation, GPA 3.7

Honors/Accomplishments:

- Spanish IV Award - Spring 2013
- Earned either High Honor Roll or Excelsior Honor Roll every single quarter.
- Scholar Athlete Award - Fall 2013
- Honorable Mention All-County - Fall 2012 (volleyball), Fall 2013 (volleyball)
- Second Team All-County - Spring 2014 (baseball)

SUNY Fredonia Fredonia, New York August 2014 - May 2016

Studied Computer Science and Philosophy, GPA 2.81

SUNY College at Brockport Brockport, New York August 2016 - May 2018

BS in Philosophy, minors in Computer Science & Anthropology

SKILLS

- HTML5/CSS3 (Bootstrap, Sass)
- JavaScript (AngularJS, Node.js, Socket.io, Knockout.js, TypeScript, jQuery, npm, JSHint)
- LAMP (PHP)
- Python (Django)
- Linux Administration (Shell programming, C programming)
- Databases (MySQL, PostgreSQL)
- Git (GitHub, GitLab)
- Docker
- NGINX
- Microsoft Azure
- Jira
- RESTful APIs (most experience with the Google Maps API)
- Writing

LANGUAGES

English - Native Proficiency
Spanish - Advanced Proficiency

INTERESTS

Web Development
Philosophy (Epistemology, Normative Ethics, European philosophy)
Writing
Linguistics
Politics/Economics
Helping people through technology (a prominent reason why I entered the computer software industry in the first place)
